

WEEK 5 REPORT

Get our greetings from Shonda Kenya hoping that you are doing well as we are.

Week four school report:

FLOWING WATER

It was of a great help to our school and it has enable the school to cut down much on a day to day water expenses as it was from the beginning. The pumping idea was bright enough to enable the pupils to get access to this essential commodity with ease. Pupils are able to access water in the school compound at any time. We thank Shonda Uk for the good work done.

Pupils enjoying treated water from the school well

EXAMS

Pupils doing exams

This has been a very busy week since the whole school is engaged in exams. Our candidates began the country exams on 23rd September and finished on 25th September. On the other

hand class one to seven are sitting for their end of September exams which commenced on 25th September and shall be done for three days.

Candidates doing county exams

Supervision of the exams

As the pupils do their exams, teachers are closely engaged in supervision and marking to get reliable results.

Exam supervision in progress

marking of exams

After every paper marking is done immediately to evaluate every individual effort. This enables the teacher to identify the strong areas and

weak areas and more so how to brain tune the pupils.

Teachers very busy marking exams.

Health officer lecturing pupils

It was a very busy week and we thank God to have enabled us through.

God bless you all.

HEALTH OFFICERS

This week the school was lucky to be visited with health officers from the ministry of health on 23rd of September 2014. The health officers educated our pupils on;

- ✓ Signs and symptoms of tuberculosis
- ✓ How to protect yourself from contracting and spreading the disease.
- ✓ Effects of the disease on an individual and society.
