

## **WEEK 7 REPORT**

### **PARENTS MEETING**

We started the week well. Everything is moving on as expected and we thank God for that. This week we started with the parents meeting to strategize in performance of the entire school right from lower to upper primary. The parents wanted to know the problems and some of the ways to improve our performance. Both parents and the board members discussed at length and come up with some of the solutions like:-

- reporting time
- Regular English speaking
- Evening preps
- Reading of story books
- Timely fee payment
- Adhere to school feeding program

*Parents keenly following the meeting proceedings.*

### **ICT GUIDE BOOK AND WORLD MAP**

We also received the world map and I C T guide book that was sent by Jonathan Purkiss from

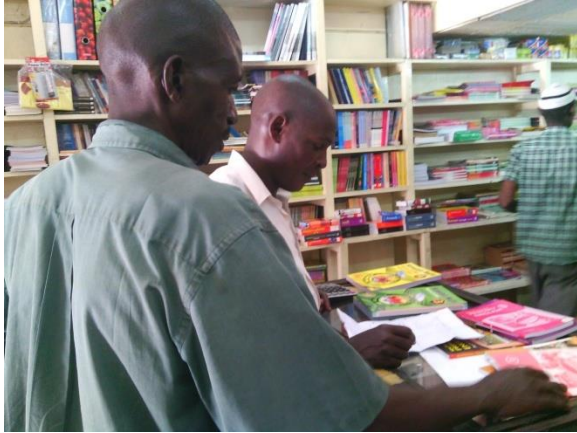

UK. We really appreciate his effort in making sure that everything is moving on smoothly. The I C T guide book and the map are helpful to us. We will appreciate if you will provide us with more of the primary level ICT text books. This is an area which is coming up in our syllabus and most of the schools introducing it lack text books.

*The head teacher displaying the map and I C T guide book*

### **PURCHASING OF REVISION BOOK**

This week the school purchased quite a number of text books to boost on the academic. This was done on three phases. The first phase we purchased revision books for classes seven and eight. The second phase we added quite a number of course books for the upper primary. Then the last phase we purchased revision books for upper classes. This is aimed at improving the grades of each pupil in our school by having variety of revision books. Our mini library is now packed well with text books and we will continue to add more as time goes by. God bless UK for the great job done by financing the same. We hope that the school will realize better results at the end of this year.

*Action time purchases of the books in one of the bookshop in town.*

*Rubberstamping the first batch of text books for school identity.*

### **TEACHERS MEETING**

Teachers too had their meeting to emphasize on performance and find out various ways to make sure that good results are archived. The teachers came up with various ways to see to it that good results are achieved and this include:-

- Discipline within and out of the school.
- Use of English as the main language.
- Introduction of standard exams.
- Giving more homework.

- Early syllabus coverage.

-Prompt school attendance and others.

*Teachers meeting in progress*

### **LAST INTERNAL EXAM**

This week the outgoing class sat for their last internal exam. They were determined and optimistic that they will make it come their final exam. We are praying for them and we too hope that they will excel.

*Class eight doing their last internal exams*

### **NURSERY ASSAMBLY**

The school introduced the nursery assamby. This is to make sure that the daily routine is closely monitored. Due to this the health check of the individual pupil has been improved. The

pre primary school teachers are working very hard to make it better.

*Madam Norah addressing pupils*

We are hoping that things will move on well, we will update you as we proceed.

God bless you

Ali Reje.
